TWO REGIMES STRUGGLE TO CONTROL GERMANY General Strike In Effect To Crush Kapp Revolt

(BY THE ASSOCIATED PRESS)

Germany's two governments—the new, in Berlin, and the old, in Stuttgart—are still locked in a struggle for supremacy. While reports from Paris today reiterate that negotiations are in progress for a compromise, the Ebert government in Stuttgart is equally positive that no compromise can be considered.

On the face of the announcements by rival governments, today seemed to witness the beginning of a determined contest for control. Chancellor Kapp, backed by the bayonets of the troops that made it possible for him to oust the Ebert government, is sitting tight in the Ger-

man capital, but already feels the effects of the strong weapon the Socialists have used to combat him—the general strike. Against this he declares that most drastic measures will be taken immediately.

In Stuttgart President Ebert and his followers not only denied the report current yesterday that an agreement had been reached with the Kapp force, but declared there could be no negotiations except from the basis of unconditional surrender by Dr. Kapp.

The national assembly, called together by the Ebert government, will meet at Stuttgart tomorrow to consider the situation.

Field Marshal Von Hindenburg, who has been mentioned as the choice

of the Kapp faction for the German presidency, has eliminated himself from the situation, it is stated by Hanover newspapers. He is reported to have made a public declaration that he is not connected with the Kapp revolution and on the contrary, disapproves of it.

Berlin is in the grip of a general strike by Socialists and labor leaders as a counter stroke to the assumption of power by the government headed by Dr. Wolfgang Kapp, who has issued a decree threatening all strike leaders and pickets with death if there is interference with vital public services. Extreme measures will be taken under the decree from 4 o'clock this afternoon, and it is possible the crisis of the new revolution will quickly follow.

Details of the situation throughout Germany are somewhat obscure,

but there seems to be reason to believe the Ebert government is still holding control in the southern and western sections, while the Kapp regime is rather firmly entrenched in northeastern Prussia, and in Silesia, where many towns and cities are reported to have declared their adherence to the new government.

Fighting is reported at various points throughout Germany and it is said there was bloodshed in suburbs of Berlin yesterday, but it would seem the clashes so far reported have been between militia units and disorderly crowds.

So far as is known, marked forces of the two governments have not come into collision.

PERUVIANS ATTACKED IN THE CAPITAL OF BOLIVIA

LIMA, PERU, Mar. 15.—The Peruvian legation at La Paz, the Bolivian capital, was attacked last night by a mob of a thousand according to official advice received this afternoon by the Peruvian foreign office. The Peruvian consulate and private residences of Peruvians were also attacked, the dispatches declare.

The government shields on the official building were torn down and windows were broken.

The mob, advised state, was headed by General Ismael Montes, former president of Bolivia.

The Peruvian minister and the consul, with their families, were at the theater when the outbreak occurred. They were escorted to their residences by the American minister and the British charge, the message adds.

The American charge d'affaires at Lima held a long conference today with President Porras and officials of the Peruvian foreign office.

President Porras was expected to appear before congress this evening and make a full statement regarding the situation.

Feeling between Peru and Bolivia has been running high of late because of a sharp revival of the question of a port outlet for Bolivia in the former Peruvian province of Africa, one of the two provinces taken over by Chile as the result of the war of 1879-83.

There has never relinquished her claims to those provinces, the title to which was to have been decided by a plebiscite. Chile remains in possession of them, however.

No vote has ever been taken and Chile and Peru have charged each other with responsibility for the failure to hold the plebiscite. Recently an agreement was reported to have been reached between Chile and Bolivia, under which Bolivia would be granted the port of Arica, in Arica province, and Peru has formally protested to Bolivia against the grant.

PARIS FEARS REAL PLOTTERS IN REVOLT HAVE FAILED TO SHOW THEIR HAND; EBERT HAS REJECTED COMPROMISE

COLOGNE, MARCH 16.—(BY THE ASSOCIATED PRESS)—THE RESIGNATION OF DR. KAPP, CHANCELLOR OF THE NEW GOVERNMENT IN BERLIN, IS CONSIDERED IMMINENT, IT WAS DECLARED TODAY IN REPORTS RECEIVED HERE. FIELD MARSHAL VON HINDENBURG HAS WRITTEN TO DR. KAPP ADVISING HIM TO WITHDRAW.

THE FIELD MARSHAL ALSO HAS ADVISED EBERT TO HOLD ELECTIONS. THE LETTER OF VON HINDENBURG IS DECLARED TO BE HAVING A MARKED EFFECT.

BERLIN, MARCH 15.—(BY ASSOCIATED PRESS)—(8:30 P. M.)—THE OPINION WAS EXPRESSED THIS EVENING BY ONE OF CHANCELLOR KAPP'S FIRST LIEUTENANTS THAT PRESIDENT EBERT, PREMIER BAUER AND THE OTHER MEMBERS OF THE BAUER CABINET WOULD PROBABLY BE ON THEIR WAY TO BERLIN WITHIN THE NEXT 48 HOURS.

STUTTGART, MAR. 15.—Refusal to negotiate with the reactionary faction headed by Dr. Wolfgang Kapp, head of the new government at Berlin, was decided upon here today by the council of the old cabinet, over which President Ebert presided. Unconditional resignation of the leaders of the new government was demanded by the Ebert cabinet, which arrived here this afternoon by a special train from Dresden. The national assembly will meet in this city Wednesday afternoon at 4 o'clock.

Announcement was made that the Ebert government is in contact with almost all points in Germany.

"The constitutional government," reads an official announcement, "refuses to negotiate, being responsible to the people for the maintenance of the constitution and negotiations would only occasion distrust and confusion and would prolong disorders."

PARIS, March 16.—Dispatches received by the French foreign office today affirm the truth of reports that negotiations are going on between the Ebert and Kapp governments in Germany.

Dr. Gradnauer, Socialist president of the cabinet of Saxony, is declared to be acting as intermediary in an endeavor to bring about a compromise through which there might be a concentration of the parties for the formation of a cabinet under normal conditions.

The efforts of Chancellor Kapp's followers now appear, according to the French advice, to be directed towards the elimination from the cabinet of the ministers most objectionable to the Kapp following, and to bring about a shifting of power in the direction of conservatism.

According to the French dispatches, it is beginning to appear as if Dr. Kapp and his active supporters brought forward what might be called "storm troops" to try the ground and see what could be done, while the real leaders of the reactionary idea remained in the background awaiting developments.

THIRTY REPORTED KILLED IN FIGHTING AT HAMBURG
COPENHAGEN, March 16.—Thirty persons were killed including some women and children, in yesterday's fighting in Hamburg between citizen guards and Baltic troops, advices from that city state.

Among the killed was Captain Berthold, commanding the Baltic troops.

The Hamburg advices report the resignation last night of Baron Von Wangelin, the senior garrison officer there. Here Lauphar, a supporter of the Ebert government, succeeded him.

NEW GOVERNMENT FORMED AT MUNICH, BAVARIA
LONDON, March 16.—A new government was formed at Munich, Bavaria, yesterday, composed of Democrats and the center parties, according to a Copenhagen dispatch to the Central News. The new government will meet today, the dispatch says.

NUMBER OF PERSONS KILLED IN LEIPZIG
BERLIN, March 16.—Fussiliads occurred again yesterday afternoon in various parts of Leipzig, especially near the general post office and a number of persons were killed or wounded, a dispatch from Leipzig says. The middle of the town has been entirely cordoned off by troops.

WORKING CLASSES MUCH EXCITED AGAINST KAPP RULE
LONDON, March 16.—The working classes are much excited against the Kapp administration as a consequence of the shooting of a young girl in the south Berlin railway station and the killing of four persons in the north Berlin industrial section by guards, according to a Berlin dispatch to the Evening News.

MANY KILLED IN OUTSKIRTS OF BERLIN
BERLIN, March 16.—Fifteen persons are reported to have been killed and many wounded in fighting yesterday at Steglitz, in the southwest outskirts of Berlin. At Charlottenburg, a western suburb of Berlin, four persons are said to have been killed and six wounded as a result of collisions.

TROOPS FIRE ON CROWD AT LEIPZIG
LONDON, March 16.—During a demonstration at Leipzig yesterday, troops fired on a crowd killing more than 20 persons and wounding about 70, says the Copenhagen correspondent of the Central News. Reports received in Copenhagen, the correspondent adds, state that fighting continues in many parts of Germany.

The workers are reported to have proclaimed a "council republic" at Essen and in the Ruhr district. The civil and military authorities at Cassel and Oldenburg are said to be supporting the Ebert government.

WANTED TO IGNORE PEACE TREATY TERMS
GENEVA, March 16.—One of the conditions proposed to the Ebert cabinet by General Von Luciwitz was that demobilization of the army of the empire, so provided by the Versailles treaty, must not be executed and war materials not destroyed, according to Premier Bauer, of the old government, says a Stuttgart dispatch to the Neue Zurich Zeitung.

Premier Bauer also quoted General Von Luciwitz as saying that the empire, instead, should prepare for a new war. The premier added: "After such a condition, what aims Kapp and his accomplices are pursuing can be judged."

SOVIET REPUBLIC PROCLAIMED AT ROY, BAVARIA
AMSTERDAM, March 16.—A dispatch to the Handelsblad from Berlin today says that a soviet republic has been proclaimed at Roy, Bavaria. (Roy is in northeastern Bavaria, thirty miles northeast of Hof. It has a population of about 25,000.)

STRIKE LEADERS FACE DEATH

BERLIN, March 15.—Men who act as leaders or pickets in the general strike called in this city as a protest against the reactionary revolt, are threatened with the death penalty in a proclamation issued today by Dr. Wolfgang Kapp, the new chancellor.

The order for the infliction of capital punishment will be effective after 4 o'clock Tuesday afternoon, and is based on the decree prohibiting any strike or passive resistance in any vital service, which was issued earlier in the day by the minister of defense.

The chancellor's proclamation follows: "Ring leaders who are guilty of acts specified in the decree for safe guarding important services and for the protection of labor and peace, will, as well as strike pickets, be punished with death. This decree is effective from 4 p. m. Tuesday."

There is intense anxiety over the prospect of a continuance of the strike with a possibility of famine and epidemics resulting from the lack of sanitation and the stoppage of the water supply.

BERLIN FACILITIES COMPLETELY PARALYZED

No world capital probably ever before experienced such a complete paralysis of all its living and commercial facilities as Berlin did today. The hotel Adlon made heroic efforts to provide food for the American, British and French missions and newspaper correspondents, but it gave up the task at 10 o'clock this morning when the last of the kitchen force walked out, leaving foodstuffs to rot for themselves. It was a common spectacle subsequently to see frock-coated diplomats returning to the hotel from foraging expeditions carrying brown paper parcels, foodstuffs, oil stores and other necessities.

Guests of the hotel, warned that the water would be shut off at noon, filled the bath tubs and wash stands, but defective stoppers gradually let out the precious fluid and the guests thereafter had to rely on wines and table water. Men who are usually shaved by barbers, are in an apologetic mood tonight and if the strike continues, the male population will soon be bearded.

This city this afternoon had the appearance of another Sunday holiday, sauntering crowds filling Unter Den Linden. At intervals troops with bands and accompanied by artillery and machine guns paraded through the street.

"BLUFF IN 1918 ON PART OF GERMANS WOULD HAVE PARALYZED SHIPPING"—SIMS

WASHINGTON, D. C., March 16.—A little "bluff" on the part of the Germans in 1918, at the crucial point of the war, would have paralyzed transportation of soldiers and war materials between this country and Europe, Rear Admiral Sims today told the Senate naval sub-committee.

Information from authentic sources, indicating that the Germans were building two heavily armored modern battle cruisers for a desperate last hope raid against troop ship convoys, was transmitted to the navy department, Admiral Sims said, and immediately he was besieged with cablegrams from Washington outlining various plans of action, all of which, he testified, were impractical, although such a contingency had been under discussion for nearly a year and there had been ample time to prepare.

"If the enemy had only known," said Admiral Sims, "all he need have done was to make a series of bluffs, involving little risk to himself, and we would have done the rest. Shipping would have been paralyzed."

MUCH SUNKEN TREASURE IS RAISED

LONDON, March 16.—Sunken treasures worth 50,000,000 pounds (\$250,000,000) has been raised since the war began, around the British Isles.

The destroyer and the Bellini, two salvaging vessels that were bought by a British concern from the American navy, have a new device, an oxyacetylene flame, which is worked under water for cutting holes in the submerged vessels.

Each ship has 25 electric pumps capable of pumping 1,000,000 gallons of water an hour and carries two divers, searchlights, line throwing guns, electric welding plants, rock drills and other accessories. Each diver is equipped with a telephone.

WOOD LEADS JOHNSON IN MINNESOTA

ST. PAUL, MINN., March 16.—A statement issued at state headquarters of Major General Leonard Wood today claimed that Wood carried every county in the state at last night's Republican presidential preference primary, that Wood delegates would be in control at the state convention here Saturday and that the delegation to the national convention would be instructed to support the Wood candidacy.

Statewide returns from nearly every county on the Republican presidential preference primary last night, compiled up to 11 p. m., indicated that Major General Wood would have a majority of the delegates to the state convention here Saturday and that Hiram Johnson would have most of the remaining delegates.

Governor Lowden, of Illinois, seemingly finished fourth.

Outside of the twin cities' returns showed strong pluralities for Wood and incomplete returns from St. Paul, Minneapolis and Duluth, indicated Wood pluralities. In many rural districts there was no voting.

NORTH DAKOTA HOLDS PRIMARY IN SNOW STORM

BISMARCK, N. D., March 16.—With a heavy snow storm raging over North Dakota, indications pointed to a tight race in today's presidential preference primary. Only one candidate for president, United States Senator Hiram W. Johnson, of California, has entered and chief interest centered in the selection of national committeemen and convention delegates. Voters of each party will name a national committeeman, ten national convention delegates and five presidential electors.

Constitutional amendments proposed repeal of the laws prohibiting tax sale of real estate, Sunday law, and Sunday theaters, also will be voted on.

COLUMBUS, O., March 16.—Ap- pointment of James H. Clark, of Cincinnati, assistant United States district attorney for the southern district of Ohio, to fill the vacancy caused by the resignation of District Attorney Stuart R. Polk, was announced today by District Judge Salter, who directed Judge Polk, of Cincinnati, was directed by Attorney General Palmer to fill the vacancy until a new district attorney is appointed and qualified. Clark's headquarters will be in Cincinnati.

CHICAGO CITY EDITOR FACES A JAIL TERM

CHICAGO, Mar. 16.—Hector E. Elwell, city editor of the Chicago Evening American, was at liberty today under a stay from a jail sentence and a fine of \$500, imposed by Federal Judge Carpenter for refusing to reply to questions asked by a federal grand jury. Judge Carpenter entered an order yesterday finding Elwell guilty of contempt of court and sentenced him to the county jail until he expressed readiness to answer the jurors.

A stay order for ten days was obtained by attorneys for Elwell, who said:

"We consider the point involved so important to newspapers in general that we intend to carry this case to the highest court."

Elwell refused to disclose the source of a news story concerning action against W. H. Sacco, head of the Chicago bureau, charged with enforcement of the anti-racket law.

Restoration Of The Ebert Government With Sporadic Radical Outbreaks Expected

WASHINGTON, D. C., March 16.—(By the Associated Press)—Restoration of the authority of the Ebert government with sporadic Socialist outbreaks throughout Germany, are expected by military officials here, who interpret dispatches from Colonel Edward Davis, military attaché at Berlin as indicating that the coup d'état is not as serious as had at first been supposed.

The calling of a general strike by the Ebert cabinet is regarded here as certain to encourage the most radical elements of the German nation to make another attempt at revolution and overthrow the capitalistic society. But while the recurrence of violence in the large cities similar to the Spartacist revolts last year is looked for, the soviet sympathizers in Germany are said to constitute so small a minority that serious trouble need not be expected.

Official advices to the state department today from Berlin said, some officials there had expressed the belief that the new government would last but a short time and that Ebert and his government were sure to return to the capital soon.

Rail Strike Set For Today

LONDON, March 16.—The national strike on the German railways was set to begin this morning, says a message to the Exchange Telegraph Company from Berlin filed yesterday. The railway men's officials have declared themselves in solidarity with the working men of the country.

The railway men's central committee, adds the message, is moving from place to place fearing arrest by officials of the Kapp government.

Ignore Orders From Berlin

BRISBEN, March 16.—Communications between this city and all parts of Germany are being safeguarded, said a proclamation issued here today by the Ebert government.

"Certain as it is that the Berlin venture will collapse of its own weakness and confusion," the proclamation declared, "the fatal political and economic consequences of this step are to be deplored. All authorities are asked to assist German national assemblymen to reach Stuttgart."

Dr. Goepfert, president of the German peace commission, has declined to take orders from Berlin, stating that he maintains all the rights of the Ebert government and that he is continuing to work for the execution of the peace treaty.

Troops Pour Into Berlin

Berlin, Monday, March 15.—(By the Associated Press)—Heavy troop reinforcements were received today by the new government in Berlin. They marched into Berlin from nearby garrisons.

Chancellor Kapp, who was carried into office on the point of 8,000 bayonets three days ago, thus far has been able to produce only military backing for his government. The basis of his political authority and the source of the support other than military, which he claims, continue to be matters of profound mystery.

Notwithstanding this, he appears buoyant with optimism born of the conviction that the insurrection, which he heads, will win the people.

NEW CHANCELLOR LOCKS HORNS WITH LABOR
Today he looked horns with organized German labor in a struggle for mastery. If the general strike, which is already paralysing Berlin by reason of its unexpected ramifications and which is reported swiftly spreading to the nation's vital industrial centers, should be maintained for only three days, the view of many observers here is that it would be unreasonable to assume that Kapp will be able to establish his government firmly, despite his armed forces.

Another big realty deal was closed Monday when Al Maier purchased from Pearl Selby the large brick structure known as the Moore foundry at the northeast corner of Third and Jefferson streets.

The property has a frontage of 123 feet on Third street, 214 feet on Jefferson and 88 feet on Fourth street, the lot running through from Third to Fourth street, although a railroad switch cuts off some of the lot on the last named street.

Mr. Maier bought the property but it will be used by the Portsmouth Ice and Coal Company as a storage place for coal. This summer all the coal possible will be stored in the large building, so the company will have plenty on hand for next winter. A switch from the main B. & O. track used to run to the building and this will be retained in order to have a track inside the building which will make it a splendid place for unloading of coal direct from the railroad cars. The Moore machine shop across the street from the old Moore foundry was recently purchased by the Vulcan Iron Company.

ANDERSON'S ANNUAL BANQUET WAS MOST DELIGHTFUL AFFAIR

That a spirit of co-operation and loyalty exists among the large body of clerks and heads of departments at the Anderson Bros. big department store, was evidenced at the annual banquet given the employees of the store building, Monday evening. Scores were held for seventy-five people, and the affair was one of the most enjoyable in the lives of the employees, who look upon the store as their store, and who are ever mindful of the interest of their employers, who entered into the spirit of the occasion with as much joy and happiness as the most humble employee.

Be Careful What You Wash Your Hair With

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and cleans anything else all to pieces. You can get this at any drug store, and a few shampoos will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

YOUNG WOMAN SAYS TANLAC IS GRAND

Miss Mabel S. Deschanel is now an Ardent Champion of Tanlac, Since She Began Using It A Few Weeks Ago.

MISS MABEL S. DESCHANEL,
Popular Lewiston, Me., Woman

Miss Mabel S. Deschanel, a popular and attractive young woman residing at No. 7 Barlett Street, Lewiston, Me., is now an ardent champion of Tanlac, since she began using the medicine a few weeks ago.

"I get Tanlac above every other medicine, even that which was prescribed for me," said Mrs. Deschanel, in relating her experience. "Recently, I felt that I ought to tell them about it."

"I had been a great sufferer from indigestion and had been under the doctor's care for six months without relief. At the time I began taking Tanlac I was on a very strict diet and at times could not retain food of any kind. Even cold water would cause extreme nausea. I suffered from loss of appetite, severe cramping pains, after eating and extreme nervousness."

"Finally my condition got so bad I simply had to give up and go to bed. I could not eat, and I was unable to do my shopping and housework. I had been under treatment for six months, there seemed to be no relief for me. However, I don't regret getting Tanlac, for I was suffering terribly and getting worse all the time."

"Finally my doctor persuaded me to try Tanlac. I improved from the very first and one bottle did me more good than the six months' treatment. Why, after eating and extreme nervousness, I actually gained four pounds in weight while taking this one bottle. I have now taken four bottles and I feel just like a different person and am eating just anything I want. In fact, everything seems to agree with me."

"I am now able to do my shopping without becoming fatigued. I would be glad now if I could not praise it too highly."

"Tanlac is simply wonderful, and I cannot praise it too highly."

"Tanlac is sold in Portsmouth by the Fisher & Streich Pharmacy and the leading druggists in every town."

Stewart An Easy Winner

WHITTING, W. VA., March 16.—Joy Fox, featherweight champion of England, was a great disappointment here last night in his ten-round bout with Walter "Kid" Stewart, this city. The Englishman at no time looked like a fighter, although his defense was good. Stewart was the aggressor and won the fight, while Fox was always on the defensive, clinching often. He did not win a round.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Mustard does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Mustard into the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Use Mustard for sore throat, bronchitis, tonsillitis, croup, stiff neck, sciatica, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

Sent To Juvenile Court

Hattie Esling, Eric Watts, and Delia Polly, colored girls, who were arrested by officer Flowers for fighting late Saturday night, appeared in Municipal court Monday afternoon.

It developed that the Watts and Polly girls, who are 14 and 16 years

old, respectively, are too young to come under the jurisdiction of the court. Accordingly their cases were turned over to the Juvenile Court. Judge Small, however, heard the case of the Esling girl, who is 16 years old. She was found guilty of disorderly conduct, and fined \$5 and costs.

Must Be Kept Quiet

Mr. and Mrs. Lou Ellis of 622 Seventh street wish to inform friends that

the condition of their grandson, William Ellis, is so serious that friends are asked not to call for the next four days. This is according to the attending physician's advice.

This was seriously injured last Thursday night in the barrel department at the steel plant when a barrel exploded, a large piece of the barrel hitting his head. He is in a semi-conscious condition and it is necessary that he remain quiet for the next three or four days. The young man does not recognize any of his friends and only in a conscious period recognizes his grandparents. A large number of friends called at the home Monday.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pain, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

Daniel Marrs, laborer, employed at the N. & W. terminals at East Portsmouth and who resides at "Thirteenth and Union streets" ran afoul of an angry wife and a hot coffee pot Sunday night, according to a complaint he made to the officers today.

As a result of the row which started at the supper table Daniel is without a home today and besides he is suffering from burns on his face sustained from the hot fluid which flew from the coffee boiler when it was tilted at him. The family recently moved here from Young.

The Aftermath of Flu

This is No. 1 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Your doctor will impress upon you that following recovery from the active stage of influenza, there often remains an inflamed, congested condition of the air passages—throat, larynx, bronchial tubes and lungs.

Frequently the cough hangs on—soreness of the chest persists—you take cold easily and there may be obstinate catarrh. This condition is slow to clear up and if neglected may favor the development of pneumonia, or later on, serious disease of the lungs.

Such cases should continue under the care of their physician—should exercise moderately in the open air—eat plenty of wholesome food—avoid overwork and sudden chills.

Nightly applications of Vick's Vapo-Rub may help nature to complete the process of repair. Because Vick's acts locally by stimulation thru the skin to

draw out the inflammation, to tract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vick's are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vick's the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 231 Broad Street, Greensboro, N. C.

HOTEL COMMITTEE OF C. OF C. HAS COMPLETED ALL PRELIMINARY WORK

The Chamber of Commerce committee on the new hotel for Portsmouth, have practically completed their preliminary work and have reached the point where action of a different character is necessary.

In making a study of this question, the committee have had letters and propositions from nine architects and building companies, and have personally interviewed several of these.

While it may seem that a considerable length of time has been consumed by the hotel committee in their preliminary work, when it is considered that an expenditure of money amounting to from \$50,000 to \$1,000,000 is involved, it is natural to assume that great care must be exercised in the selection of an architect and builder, in the preparation of plans and specifications, and in the selection of a site before definite recommendations can be made.

At a meeting of the hotel committee Monday, it was decided to proceed along the following lines: The Board

of Directors are requested to immediately ask the committee on committees, to appoint a committee of 20 to open the options, now in the hands of the Chamber of Commerce, and view the sites proposed.

It is absolutely essential that the architect who will be asked to design the hotel, be on the ground when the site is selected, as the entire design of the hotel will largely depend on the size and location of the site.

The hotel committee has held the various propositions down to three hotel builders and architects, and they have wired for some additional plans which will enable them to select one of the three within the next few days.

Each of the three firms under consideration comes highly recommended, and the final decision rests entirely upon the results of the telegrams sent today.

After the architect is selected, a prospectus and preliminary plans will be issued and a campaign put on foot to sell the stock. In the meantime the

site will have been decided upon so that construction may be commenced at as early a date as possible.

Several propositions have also been received from operating companies, and these are also being considered.

Any one with additional options should present them as promptly as possible.

Coming events cast their shadows

Do not allow the Time to Pass with Nature Unaided

THE sculpturing of a statue is a greater thing than the unravelling of it; and so the growth of the unborn infant under its mother's influence is no less important than its entrance into the life that follows.

No woman awaiting the joy of coming motherhood should allow the days to pass without giving nature a helping hand. Mother's Friend is a veritable balm for the nerves, an intensely penetrating application that softens the muscles, relaxes nervous tension of the delicate organism involved in maternity, and prepares the way for an easier, quicker, and practical delivery.

MEN ACCUSED OF THEFT PLEAD NOT GUILTY

Ernest Howard and Ernest Berry, each charged in three indictments with burglary and larceny and receiving stolen property, appeared before Judge Thomas in Common Pleas court yesterday and pleaded not guilty to each of the indictments.

Howard and Berry are two of the eight men indicted in connection with the theft of large quantities of cigarettes, overalls, candy and other merchandise from railroad cars in the S. & W. yards at East Portsmouth. The accused men were released on \$1,000 bond each pending their trial.

Others alleged to be implicated in the thefts include Oscar Perkins, Lige Thompson, E. W. Cole, Cliff Mowery, Walter Lewis and Joseph Brown, and following their arrest last December all secured their release on bond. Lewis and Brown are said by the officers to have fled while the others are expected to appear in court soon to answer to the indictments.

SCIOTO COUNTY HARDING FOR PRESIDENT CLUB FORMED; REPUBLICANS ARE URGED TO GET BUSY

Gen. H. Charlie, chairman of the Republican State Advisory Committee, paid glowing tribute, Monday night, to the late Philo S. Clark of this city, who, he declared to the Scioto County Republican Club assembled in their club room in the Masonic Temple, "for many years, in victory and defeat, in triumph and in reverses, held aloft the torch of Republicanism, and did for you the duties you neglected."

"In his memory I appeal to you to organize your county and work with a glorious victory as your aim. "The Republican party must cease to appeal to the voters on its history. We must make our history as we live, day by day, and make a history that appeals for itself. "What this country needs is not less politics, but more politics. "You men say you are too busy for politics. I say to you in all earnestness: Men, unless you give some time to the business of politics, you may see the time when you will have no business to keep you busy. "What are you doing to justify your

Well Known Military Leaders Behind The German Revolt

LONDON, March 16.—Behind the movement to overthrow the Ebert government of Germany and substitute a conservative ministry, stand well known military leaders, including Colonel Bauer, who has the reputation of being the most clever staff officer in the German army, says a Berlin dispatch to the Daily Mail. "These leaders," the dispatch continues, "have been working secretly for months in preparation for their coup. They realized in his heart the German still thought of the kindly old days guided as they now are in his recollections by memories of peace and prosperity."

If Too Thin Try Bitro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition. It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate, which can be obtained from Planer & Street or any good druggist in convenient tablet form. In many instances the assimilation of this phosphate by the body tends soon to produce a welcome change—nervous tension disappears, vigor and strength replace weakness and lack of energy, and the whole body loses its thin hollow and atrophied angles, becoming enveloped in a cloak of perfect flesh and beauty and the will and strength to be up and doing. (CAUTION)—While Bitro-Phosphate is a powerful aid for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should not take extra care in avoiding fat-producing foods.

REVIVAL AT MANLY

Before a congregation that more than filled the seating capacity of Manly church, the pageant, "The Living Cross," was presented Sunday evening by a cast of more than fifty people.

group appears, clothed in appropriate costumes, the speaker for the group presents their needs. The groups in order of appearance are: Italians, Negroes, Mountain Whites, Italians, Moros, Chinese and Japanese, Eskimos and Hawaiians.

Appalled by what she has discovered, America in despair asks how her people are to be lifted. Then Christianity (Miss Anna Burch) appears with the assurance that she will show the way. Before her various groups of the people within her borders. As each

group representing Tithers, Education, Prayer and Life Service, each with their message of hope. These then occupy places on the arms of the cross and at its foot. Thus the cross becomes not merely a wooden symbol but is made to live with hope for all those in darkness. Following the singing of "In the Cross of Christ I Glory" by the groups, Christianity drapes America with the flag. In the final tableau America holds aloft the torch of light while the groups kneel before the cross, and the song "I Gave My Life for Thee" was sung by Fred Weaver.

Musical accompaniment was furnished throughout the whole pageant by Miss Lettie Adams.

The pageant was beautifully presented and was highly commended by all who saw it. All who took part are to be congratulated on the excellent way in which it was presented and are to be commended for the painstaking practice that they gave to make it a success.

Following the pageant, Rev. Wolfe preached a splendid sermon on the subject "Why the Multitudes Followed Jesus." He showed that they were attracted by the physical benefits they gained and when Jesus revealed His spiritual mission they forsook Him.

Monday evening the subject was "Nobody But God and You." Rev. Wolfe emphasized the fact that God cares for each individual as though he were the only person in the world. Realizing this, ought we not then to be willing to trust Him, even though we can not clearly see the next step?

Services this evening at 7:30. Subject, "A Good Man, But Lost." Special music. Everybody invited.

INTEREST GROWING IN BIG REVIVAL

"I am not a professional evangelist," declared Rev. C. O. Graham, who is conducting a three weeks' revival in the Trinity M. E. church, in his initial sermon Monday night.

Rev. Graham preached last night on the "Power of Prayer," to a large audience, the church being filled almost to capacity downstairs.

The large chorus choir occupied the whole of the choir loft and most of the pulpit, which had been enlarged to extend over the altar rail. Chorister Wilbur Miles sang beautifully the hymn, "Cast Out Into The Deep."

The services tonight will begin at 7:30. Rev. Graham will preach. Indications are that the revival will be one of the most successful ever conducted in Trinity church, as much interest is being shown in it.

ASSERTS SHE HAS NEW LEASE ON LIFE NOW

When Hope Deceived And Fear Annoyed Trutona Gave Portsmouth Woman Convincing Relief

March 15.—"After everything had failed, Trutona has given me a new lease on life," is the grateful and convincing statement of Mrs. Martha Dure, a well known Portsmouth woman who resides at 1014 Gay street. Mrs. Dure has been a resident of Portsmouth for the past fifteen years. "I had a very bad cough and sometimes suffered hemorrhages," says Mrs. Dure. "For the last few months my stomach had been in such bad shape that I could eat nothing but the lightest of foods and consequently I grew very weak. Just the day before I began taking Trutona I fell in the yard and had to be carried into the house. I was told that there was no hope of my getting any relief, but Trutona has certainly done it."

"My cough is so much better now that I haven't suffered a hemorrhage since I began taking Trutona. I sleep much better now at night and get up in the morning feeling much more refreshed than I have for some time. I can eat anything I want to now and the food doesn't hurt me a bit. When I am able to go out walking now, I am surely deeply thankful for Trutona and knowing what it has done for me I feel it my duty to recommend it to anyone troubled as I was."

Trutona is now being introduced and explained in Portsmouth at Wurster Bros. Drug Store.

Fierce Sea Creatures.
The dangerous marine creatures are in general not the largest. The killer whale, which is 20 feet or so in length, with attack and devour almost anything that swims in the sea. Sometimes they join in schools and hunt the big whalebone whales like a pack of hungry wolves. The man-eater shark, seldom more than 25 feet long, is one of the fiercest sea creatures. He is as rare as he is dangerous. The big sperm whale seems to feed largely on large specimens of octopus, for instance. After fifteen lobsters have arrived in England from the Congo. CATARRAHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Varminol (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Stopped nostrils should open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

G. E. Plumb To Talk On Railroad Problems

On Wednesday evening March 17, at the high school auditorium, Glenn E. Plumb, a well-known lawyer, will deliver an address to the people of this community on the problems of the railroad. He is regarded as an authority on the subjects of rate-making and valuation, his expositions before the Interstate Commerce Commission on these subjects having commanded wide interest. He will explain the Plumb plan for the re-organization of the railroads, whose cardinal merit is that it seeks to place transportation on a basis of service instead of on a basis of private profit. All business and professional men in the city are invited to come and hear Mr. Plumb. The committee on arrangements extends a special invitation to all.

WAS HIS HOODOO DAY

Sunday, it appears, was Bryan Hamilton's hoodoo day. Just about 12 hours before the accident on the Galia pike a mile west of Wheelersburg, Hamilton ran into and seriously injured Chester Webb, 1102 Front street, when his Sedan struck Webb, who was riding his Indian motorcycle, at the corner of Third and Bond streets. Webb, who was seriously cut about the legs, was taken by Hamilton to Dr. Martin's office. He says his motorcycle was damaged to the extent of about \$25.

Winter "Officially" Dead

Six weeks ago Monday the groundhog stuck his nose out of his hole, saw his shadow and crawled back in. And so, for six weeks, according to the ancient tradition, winter "stayed set" high upon the throne; and men have clung to their overcoats, refusing before the dreaded cold. With women, however, it is different. Brave souls! Disregarding prophecy, warning, and admonition, they sport straw hats and Fourth of July pumps. Today, the prophet says, the weather will break, and the monarch of the snow and ice will beat it, to be listed with the Hohenzollern and other kindred spirits until another winter shall roll around. The mercury only touched 67 as its maximum reading Monday.

The gas company appealed from the provisions of the ordinance and the matter will be reviewed by the state commission.

EBERT REFUSES TO COMPROMISE GERMANY FACES CIVIL WAR GENERAL STRIKE GRIPS NATION

STUTTGART, Mar. 15.—Refusal to negotiate with the reactionary faction headed by Dr. Wolfgang Kapp, head of the new government at Berlin, was decided upon here today by the council of the old cabinet, over which President Ebert presided. Unconditional resignation of the leaders of the new government was demanded by the Ebert cabinet, which arrived here this afternoon by a special train from Dresden. The National Assembly will meet in this city Wednesday afternoon at 4 o'clock.

Announcement was made that the Ebert government is in contact with almost all points in Germany.

"The constitutional government," reads an official announcement, "refuses to negotiate, being responsible to the people for the maintenance of the constitution and negotiations would only occasion distrust and confusion and would prolong disorders."

PARIS, March 15.—Dispatches received by the French foreign office today affirm the truth of reports that negotiations are going on between the Ebert and Kapp governments in Germany.

Dr. Grawert, Socialist president of the cabinet of Saxony, is declared to be acting as intermediary in an endeavor to bring about a compromise through which there might be a concentration of the parties for the formation of a cabinet under normal conditions.

(BY THE ASSOCIATED PRESS)
Civil war seems imminent in Germany, as a result of the refusal of the Ebert government, now sitting at Stuttgart, to carry on negotiations

with the reactionary regime, which seized the power suddenly last Saturday morning.

Unconditional surrender of the men directing the new government is demanded by President Ebert, who announces he will continue to direct the affairs of the troubled country from Wurttemberg. The German national assembly will meet in Stuttgart tomorrow afternoon at 4 o'clock.

Berlin is in the grip of a general strike by Socialists and labor leaders as a counter stroke to the assumption of power by the government headed by Dr. Wolfgang Kapp, who has issued a decree threatening all strike leaders and pickets with death if there is interference with vital public services. Extreme measures will be taken under the decree from 4 o'clock this afternoon, and it is possible the crisis of the new revolution will quickly follow.

Details of the situation throughout Germany are somewhat obscure, but there seems to be reason to believe the Ebert government is still holding control in the southern and western sections, while the Kapp regime is rather firmly entrenched in northeastern Prussia, and in Silesia, where many towns and cities are reported to have declared their adherence to the new government.

Fighting is reported at various points throughout Germany and it is said there was bloodshed in suburbs of Berlin yesterday, but it would seem the clashes so far reported have been between militia units and disorderly crowds.

So far as is known, marked forces of the two governments have not come into collision.

STRIKE LEADERS FACE DEATH

BERLIN, March 15.—Men who act as leaders or pickets in the general strike called in this city as a protest against the reactionary revolt, are threatened with the death penalty in a proclamation issued today by Dr. Wolfgang Kapp, the new chancellor.

The order for the infliction of capital punishment will be effective after 4 o'clock Tuesday afternoon, and is based on the decree prohibiting any strike or passive resistance in any vital service, which was issued earlier in the day by the minister of defense.

The chancellor's proclamation follows:

"King leaders who are guilty of acts specified in the decree for safe guarding important services and for the protection of labor and peace, will, as well as strike pickets, be punished with death. This decree is effective from 4 p. m. Tuesday."

There is intense anxiety over the prospect of a continuance of the strike with a possibility of famine and epidemics resulting from the lack of sanitation and the stoppage of the water supply.

BERLIN FACILITIES COMPLETELY PARALYZED

No world capital probably ever before experienced such a complete paralysis of all its living and commercial facilities as Berlin did today. The Hotel Adlon made heroic efforts to provide food for the American, British and French missions and newspaper correspondents, but it gave up the task at 10 o'clock this morning when the last of the kitchen force walked out, leaving foreigners to shift for themselves. It was a common spectacle subsequently to see frock-coated diplomats returning to the hotel from foraging expeditions carrying brown paper parcels, foodstuffs, all stores and other necessities.

Guests of the hotel, warned that the water would be shut off at noon, filled the bath tubs and wash stands, but defective stoppers gradually let out the precious fluid and the guests thereafter had to rely on wines and table water. Men who are usually shaved by barbers, are in an apologetic mood tonight and if the strike continues, the male population will soon be bearded.

This city, this afternoon had the appearance of another Sunday holiday, scattering crowds filling Unter den Linden. At intervals troops with bands and accompanied by artillery and machine guns paraded through the street.

HINDENBURG NOT IN IT

COPENHAGEN, March 15.—Field Marshal Von Hindenburg, former commander in chief of the German armies, has made a public declaration that he is not connected with the counter revolution, of which he disapproves, says the Hanover Telegraph.

GENERAL STRIKE EFFECTIVE

PARIS, March 15.—(Havas)—The general strike is effective throughout Germany and only food trains are running, according to advices. Severe fighting is reported from Dresden, Leipzig, Brandenburg and Chemnitz.

ERZBERGER UNDER ARREST

LONDON, March 15.—Matthias Erzberger, former finance minister of the Ebert government of Germany, has been placed under arrest, according to a dispatch to the Exchange Telegraph Company, filed in Berlin Monday night. The dispatch states an official communique has been issued by the Ebert government at Stuttgart declaring:

"The new rulers are trying to make the people believe the constitutional government has entered into negotiations with Dr. Kapp, General Merker, acting as mediator. This is untrue."

BADENEZE WANT TO SECEDE

PARIS, March 15.—Sentiment in Baden is strong for a separation from Berlin and in favor of a union of Bavaria, Wurttemberg and Baden, according to a telephone dispatch to information from Berlin. It is said many Badenese are openly availing themselves of the social confederation.

Well Known Military Leaders Behind The German Revolt

LONDON, March 15.—Behind the movement to overthrow the Ebert government of Germany and substitute a conservative ministry, stand well known military leaders, including Colonel Bauer, who has the reputation of being the most clever staff officer in the German army, says a Berlin dispatch to the Daily Mail.

"These leaders," the dispatch continues, "have been working secretly for months in preparation for their coup. They realized in his heart the German still thought of the kindly old days

WANT VOTE ON TREATY THIS WEEK

WASHINGTON, March 15.—Senate leaders worked today for an agreement to vote on ratification of the peace treaty this week, so that the treaty might be sent to President Wilson or laid aside to permit consideration of other business.

If the ratification vote fails of the necessary two-thirds majority, a motion to reconsider is expected immediately, probably by majority leaders, in the hope of stampeding some of the opposition into changing their votes. It was admitted the situation held many possibilities, in view of the urgent representations that have been made for ratifying the treaty to stabilize world conditions.

Adoption yesterday of the substitute reservation to Article 10, by a vote of 56 to 20, removed the last obstacle to a vote on the treaty itself, although a number of other questions remain to be settled first. Fourteen Democrats voted with the majority, but that number was less than half of the strength which ardent ratificationists had promised to deliver.

Administration leaders seemed without fear that their forces would crumble sufficiently to enable the opponents to ratify the pact with the objectionable reservation to Article 10, which President Wilson let it be known through Senator Hitchcock he would not accept.

The preamble to the treaty is one of the minor questions to be considered before the ratification vote is taken. Another is Senator Owens' proposal that the British protectorate over Egypt should be regarded as "merely a measure to preserve the integrity and independence of Egypt during the war," which was to be taken up today.

With the disposal of the Article 10 qualification, the limit on debate expired. In the opinion of most senators it will not be necessary to restrict speeches again.

Weather

OHIO.—Cloudy and colder tonight. Probably rain or snow near Lake Erie. Wednesday cloudy and colder. Possible snow flurries in northeast portion.

OPENING STOCKS

NEW YORK, March 15.—Prompted largely by the reported collapse of the German revolution and the rapid improvement of foreign exchange, stocks rose vigorously at the opening today. Gains of 1 to 5 points attended the initial trading in steels, motors, equipments and oils. An early reaction of 2 points in Texas Company was soon replaced with an actual gain of 8 points. Leather, food, textile and chemical issues, as well as numerous miscellaneous shares, helped to swell the large volume operations. In the first half hour, investment rails displayed moderate improvement.

CINCINNATI TO FILL VACANCY

COLUMBUS, O., March 15.—Appointment of James H. Clark, of Cincinnati, assistant United States district attorney for the southern district of Ohio, to fill the vacancy caused by the resignation of District Attorney Stuart H. Bollin, was announced today by District Judge Sater, who, with Judge Peck, of Cincinnati, was directed by Attorney General Palmer to fill the vacancy until a new district attorney is appointed and qualified. Clark's headquarters will be in Cincinnati.

PERUVIANS ATTACKED

LIMA, PERU, Mar. 15.—The Peruvian legation at La Paz, the Bolivian capital, was attacked last night by a mob of a thousand according to official advices received this afternoon by the Peruvian consulate and private residences of Peruvians were also attacked, the dispatches declare.

The government shields on the official building were torn down and windows were broken.

The mob, advices state, was headed by General Ismael Montes, former president of Bolivia.

The Peruvian minister and the consul, with their families, were at the theater when the outbreak occurred. They were escorted to their residences by the American minister and the British charge, the message adds.

The American charge d'affaires at Lima held a long conference today with President Porras and of-

BLIZZARD IN NORTH DAKOTA

BISMARCK, N. D., March 15.—The worst blizzard of the season is howling through North Dakota today. Wind velocity at 6 o'clock was 50 miles an hour and the temperature dropped from 33 degrees to 21. The storm is said to extend from Montana to the Great Lakes, as far south as Iowa.

REVOLT AT KIEL SUPPRESSED

COPENHAGEN, March 15.—Reports of negotiations for a compromise between the Ebert government and the reactionary regime at Berlin are untrue, according to a telephone dispatch from Hamburg to the Social Democratic at midnight. It was said these rumors were spread by adherents of Dr. Wolfgang Kapp, the new chancellor in Berlin, "to deceive the public."

Workers at Kiel have suppressed an attempted military counter revolution there, and the situation is well in hand, says advices to the Social Democrats from that city.

COMMUNICATION WITH DRESDEN

COPENHAGEN, March 15.—Direct telegraphic communication with Dresden was opened today and was evidently arranged to facilitate the circulation of news concerning the Ebert government, independent of the Berlin authorities. Gustav Noke, minister of defense in the old government, has issued a decree, forbidding the circulation of proclamations issued by Berlin authorities in territory outside that city.

MOVES CAPITAL TO WUERTTEMBERG

COPENHAGEN, March 15.—President Ebert, in officially notifying Dr. Wolfgang Kapp and his associates in the new German government that no negotiations would be held between officials of the two regimes, declared he would direct the country's affairs with Wurttemberg as the capital, according to a Berlin dispatch.

BLOODY ENCOUNTERS IN TOWNS

BERNE, March 15.—Encounters at Kiel and Magedeburg are reported in telegrams from Berlin. In Kiel some naval officers have been killed, while in Magedeburg there has been fierce fighting about the central post office. Conservative parties in Germany are declared to be supporting the new government without, however, being directly identified with it. West Prussian miners are said to take a neutral attitude, the only condition they have laid down being that the Republican constitution be maintained.

MR. PLUMB IN PORTSMOUTH

THE fact that Glenn E. Plumb is to speak in Portsmouth on Wednesday night and explain his much-discussed plan in reference to the railroads, is an event of unusual interest. We have all heard of the Plumb plan, few of us know just exactly what its details are. Personally we have read everything about it we could find, for we realized it was going to be one of the big questions of the country, and either this, or some modified form was bound to come squarely up as an issue one of these days. But at that we are in the dark on many points. Mr. Plumb should have a large audience of the thoughtful citizens of this community, who should know just exactly what he is after and how he proposes to bring it about. You may not agree with him as to his plans and aims, but you should be informed as to what he and his associates stand for.

THE GOOD WORK OF THE Y. W. C. A.

THE good women who have charge of the destinies of the Young Women's Christian Association, and who have worked under the most discouraging circumstances to keep that institution going as a factor for good in the community, have but recently broadened their activities by adding a lunch and tea room at the "Blue Triangle," the recreation center of the "Y." To make it a success the managers have devoted much time and energy, some of them doing the cooking and waiting in order to get the enterprise moving successfully. They hope to have it on a par with similar lunch rooms in other cities and we surely wish them success.

The good people who have supported the Young Women's Christian Association, and the earnest, Christian women who have given so unselfishly and lavishly of their time to make it a place worthy of the city and a home, surrounded by good influences, for the girls of the town and country, are all looking forward to the day when they will have a building of their own, one that will house their various and varied activities. As we said before they have labored bravely and faithfully under many discouragements ranging from indifference and skepticism to criticism, but they have smiled and kept right on. They have made mistakes, of course, that is to be expected. Who has not? But the goal has always been right and true and worthy.

We only hope that we will live to see the day when the hopes of the managers will be realized and the Y. W. will be housed in its own home, and that home "a thing of beauty and a joy forever."

THE GERMAN REVOLUTION

IT has been evident for some time that the so-called German republic was drifting onto the rocks and that it was only a question of time when the Ebert regime would go and be replaced by a stronger and more centralized form of government. The German people have been too long accustomed to the rigid rule of the monarchists to be born anew overnight, even if the magic wand was waved by the two great idealistic leaders of the modern world, President Wilson and Premier Lloyd-George. In this history but repeats itself, Germany but following in the footsteps of France after the Revolution of 1789. Out of the ruins of the monarchy and the weakness of the new republic, sprang Napoleon and his empire, then came a succession of monarchies, each more liberal than its predecessors, until finally the present republic emerged from the ruins of the dynasty of the Third Napoleon. So we believe it will be with Germany. Unless some strong figure arises soon to rule with iron hand, it will be a return of the Hohenzollerns, with the least objectionable of the family as the figure head. But in the end, it may be months and it may be years, the German people will come into their own and realize that measure of self-government and consequent growth of prestige and prosperity to the attainment of which they are now so blindly striving.

Sunday was the first good day autoists had a chance to try out their machines and the resulting number of accidents makes one shudder to think of what will happen later on when the whole town gets on wheels, as it were. There is only one way to guard against accident. That is to drive carefully yourself and if you see someone else who is unmindful of the laws and the rules of the road, get his number and report him to the proper authority. Our streets are too narrow to be used as speedways and it is a duty to complain of those who endanger the lives of others by reckless driving of motor cars. Do your part and the authorities will co-operate with you to the fullest extent.

PLAN A VISIT IN COG.

SOME day we are going to rent an aeroplane and fly up to Ironton incog., in an effort to decide which of our editorial friends, Corns or Paul is guilty of—well let us say exaggeration in the matter of circulation claims. Corns takes in a lot of territory by claiming for his Register "the largest circulation in Southern Ohio," while Paul more modestly alleges that his Irontonian has "the largest net paid circulation in Ironton and Lawrence county." In the face of two such diametrically opposed statements we are reminded of a time when we were one of two boys both stoutly denying having thrown a wad of paper at a school mate and the teacher said "Now, which is the liar and which is the pretty man?" We might add, however, that rather than face the certainty of being called "Pretty Man" the rest of our school days by our giggling school mates we both promptly claimed to be guilty and left it to the teacher to decide our fate.

P. S. She did. We both got licked.

DRESS UP WEEK

THIS is Dress Up Week in Portsmouth. Our merchants, will this evening, unveil their windows and display the most beautiful and reasonably priced articles of merchandise that are to be found in the market. You will find the shop windows a delight and a dream, and if you need Spring clothes or other merchandise, it will pay you to visit the interior of the stores and inspect the wonderful lines of goods that are only hinted at in the windows.

And while you are thinking of it, did you try to make your own home and your own property a little more presentable?

It takes quite a while for an old-fashioned man to adjust himself to new conditions, no matter how much of an improvement they may be over the old, and personally and without committing the paper we are convinced that until 1924 at least we shall regard French-heeled, well-corseted and V-necked delegates to national conventions as primarily and principally funny.—*Ohio State Journal.*

Just by way of information and with no malice aforethought, we desire to mention for the benefit of our friend, J. L. Robinson, of Lynn, that Robert Taft, son of ex-president William H. Taft, has organized a Hoover For President Republican Club in Cincinnati, and that various other prominent republicans down there are included in the preliminary organization, one of them being the chief editorial writer on the Times-Star. Better reflect on that Hoover stuff old man before it is too late. He'll bear a lot of watching and you might yet be bailing up his picture on that identical spot where our's once hung so ineffectually.

The Diary of an Engaged Girl

HER FAMILY BECOMES DOUBLY DEAR TO HER

May 10—Less than three weeks to my wedding day now. How time flies! I am glad to say that I managed to finish my head of Jean's feathers. It was really very well done—when I do say so. The maid down at the studio seems to become more and more morose—as the time for my new venture draws near. I never realized that I had become so dear to them. It makes me feel so strange, and as if I were dragging out of the game somehow. Jean says that if she ever does marry, and she feels sure that she will not, it will not be a day before she is thirty. She says a woman changes her mind and tastes, ten times and more, before that age, and that if she does marry earlier she may expect to be ready to change her husband by that time, even if she does not do so. She may want to change and cannot, or does not, is one of the great tragedies of life. Goodness, it makes me shudder to think of what I may be unwittingly committing by marrying at nineteen.

I tried mother out on this same subject, not for enlightenment, of course, but merely to see how she would run on such a thing. She threw back her head and laughed at the very idea. Mother has such an uncomplicated sort of mind. She thinks steadily in one stream and has thought just the same way ever since she was nineteen! I must put it down to her being unmarried, that explains it. She is of the opinion that once a girl is married, has babies, worries and has to manage, she has very little time to think to all down and pensively reflect on her lot, good or bad. A husband, to her, becomes like a pet corn—he sticks to one. She assures me that father long ago became a "hald" with her, and a very good one too, that might well say! Then she began to tell me about poor Aunt Cecilia and her life and future by excessive pondering over the same question. She told me something that I had never known before, that Aunt Cecilia had once wanted to go on the stage, was beautiful, and through her own high-bredness, had lost her lover because of her refusal to see things through his eyes (as all girls should, according to

BILLY WHISKER

When Billy, as he walked along the road thought of dear, patient, little Nanny, a tear rolled down his cheek; he thought of the farm and looking through the fence saw Nanny lying in the next pasture. He thought of the two little kids jumping over her and kissing her nose. "Two very fine looking kids," Billy thought, "I wonder whose they are her children?"

This thought made him feel sick and faint, and his knees shook under him, so he dropped on the grass with his nose through the rails of the fence, and there he lay for a long while, but he never took his eyes off the three in the pasture.

"I will be here and see it if it is so," thought Billy, "and if it is he will go away and never let her know that I came back."

As he looked, old Nanny, the mother that had married them, came up to speak to Nanny, and Billy felt his blood beginning to boil, for he thought: "If she is married to that old widower, and I am afraid she is, for one of those kids is as black as Satan himself, I can't stand it! I shall stay to make myself known. Just long enough to kill him!"

Then, however, Nanny walked off, as if getting dark, and the goats began to find good places for themselves for the night. But Billy lay still and watched, though he was very thirsty and hungry, not having eaten anything all day, as he had been too anxious to get back to see if Nanny was married again.

He watched her wash the kids' little faces for the night with her soft tongue and give them a good night kiss on their little noses before they curled down to sleep beside her. It made Billy growl with loneliness to see it all, and he lay broken in spirit and wished he could die and closed his eyes to shut out the sight.

(Billy is given a pleasant surprise tomorrow.)

New-York - Day - By - Day

BY O. O. MCINTYRE

NEW YORK, Mar. 16.—There are many droll anecdotes about the night. It is proverbial that the man who makes a success in any special line of endeavor invariably has a secret wish to shine in some other line. One of New York's most famous magicians, a man whose very front upstairs in a moment of easy confidence told a group of men that he would rather be Charlie Chaplin than any man he knew.

There is a certain novelist, who has had a large measure of success in the field of letters. He lives with his wife in one of the little towns in Long Island—away from almost everybody. And yet he has been known to appear in the board of directors' meetings, once in a while, and his presence has been a group of men that he would rather be Charlie Chaplin than any man he knew.

A prominent theatrical manager whose name is known in all of the world capitals has a thrilling desire to become a grand opera singer. He has paid out thousands of dollars to the best voice teachers in America and Paris to develop a voice that he has been told has no possibilities. He once gave a recital in a private box.

WHO'S WHO In The Days News

PROF. A. C. COOLIDGE

Do you remember that Professor Archibald C. Coolidge of Harvard became embroiled in a wordy combat with the Germans back in 1915. Probably not. Professor Coolidge wrote an article warning

breath about the

colonization in that

country of the

emigration of

German. Both

Germany and Brazil

took Sundry whacks

at Professor Coolidge.

As far as

the public was

concerned, Coolidge

was out of sight

after that.

Today the professor

is doing

great constructive

work as head of the American

political mission in Austria. In Vienna

and Budapest he has been applying

himself to prolonged research into

political, social and economic conditions,

and not only has he compiled valuable

reports for the United States govern-

ment, but has become the preeminent

outsider that the preeminent rules

of what remains of the once proud

typical empire respect, trust and rely

upon.

Professor Coolidge was born in

Boston in 1866. After graduating

from Harvard in 1887 he studied at

Berlin, Paris and Friedberg, Germany,

for several years. He became an

archaeologist in 1891 and has since re-

mained, getting leaves of absence

from the Taft party to the Philis-

tinian, 1903-6, to lecture at French

universities, 1906-7, and at the University

of Berlin, 1913-1914.

HOTEL COMMITTEE OF C. OF C. HAS COMPLETED ALL PRELIMINARY WORK

The Chamber of Commerce committee on the new hotel for Portsmouth, have practically completed their preliminary work and have reached the point where action of a different character is necessary.

In making a study of this question, the committee have had letters and propositions from nine architects and hotel building companies, and have personally interviewed several of these men.

While it may seem that a considerable length of time has been consumed by the hotel committee in their preliminary work, when it is considered that an expenditure of money amounting to from \$500,000 to \$1,000,000 is involved, it is natural to assume that great care must be exercised in the selection of an architect and builder, in the preparation of plans and specifications, and the selection of a site before definite recommendations can be made.

At a meeting of the hotel committee Monday, it was decided to proceed along the following lines: The Board of Directors are requested to immediately ask the committee on committees to appoint a committee of 20 to open the options, now in the hands of the Chamber of Commerce, and view the sites proposed.

It is absolutely essential that the architect who will be asked to design the hotel, be on the ground when the site is selected, as the entire design of the hotel will largely depend on the size and location of the site.

The hotel committee has called the various propositions down to three hotel builders and architects, and they have wired for some additional data which will enable them to select one of the three within the next few days.

Each of the three firms under consideration comes highly recommended, and the final decision rests entirely upon the results of the telegrams sent today.

After the architect is selected, a prospectus and preliminary plans will be issued and a campaign put on to sell the stock. In the meantime the site will have been decided upon so that construction may be commenced at as early a date as possible.

Several propositions have also been received from operating companies, and these are also being considered.

Any one with additional options should present them as promptly as possible.
